Do you know what's really in your water? While cities add disinfectants such as chlorine and chloramines to reduce illness-causing bacteria in your water, the byproducts they produce can pose serious health risks. Some of these toxins as well as many pesticides and industrial contaminants are even more dangerous when inhaled or absorbed through the skin than they are in your drinking water. Toxin Shield Cartridge is an effective alternative to Toxin Shield+, that doesn't require an electrical outlet or drain.

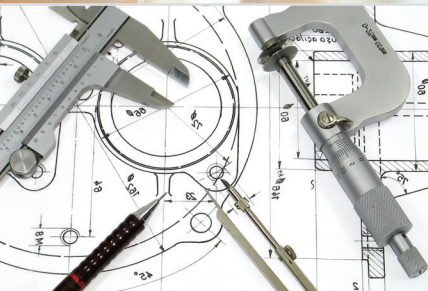

### Healthier Living

- Protects against many toxins that can be inhaled or absorbed through the skin while showering
- Reduces many harmful pesticides, industrial contaminants, VOCs and more

### Enjoy Your Water

- Protects skin from irritation and dryness caused by chlorine
- Eliminates unpleasant tastes and odors from your bathing and drinking water
- Clothing and laundry can feel softer to the touch and last longer

### Efficient Design

- Requires no floor space
- Does not require a drain or electrical connection
- 3-stage filtration system uses premium filters to optimize performance and contaminant reduction

### Low Maintenance

- High quality filter cartridges are long-lasting and easy to replace
- Helps protect your home's water supply, with very little maintenance

*Did you know?*

Chlorine used by water treatment plants can react with other contaminants to form even more dangerous byproducts, which can be inhaled and absorbed through the skin while showering and enter the bloodstream.\*

### Reduces Many Types of:

- ✓ Disinfection Byproducts (DBPs) – linked to cancer, reproductive and developmental problems
- ✓ Chlorine & chloramines – irritating to the skin and respiratory system
- ✓ Volatile Organic Compounds (VOCs) – known to cause nervous system damage
- ✓ Trihalomethanes (THMs) – including chloroform, linked to cancer
- ✓ Perchlorates – linked to thyroid and developmental problems
- ✓ Petroleum products
- ✓ Pesticides
- ✓ Herbicides
- ✓ Hormone mimickers
- ✓ And many more

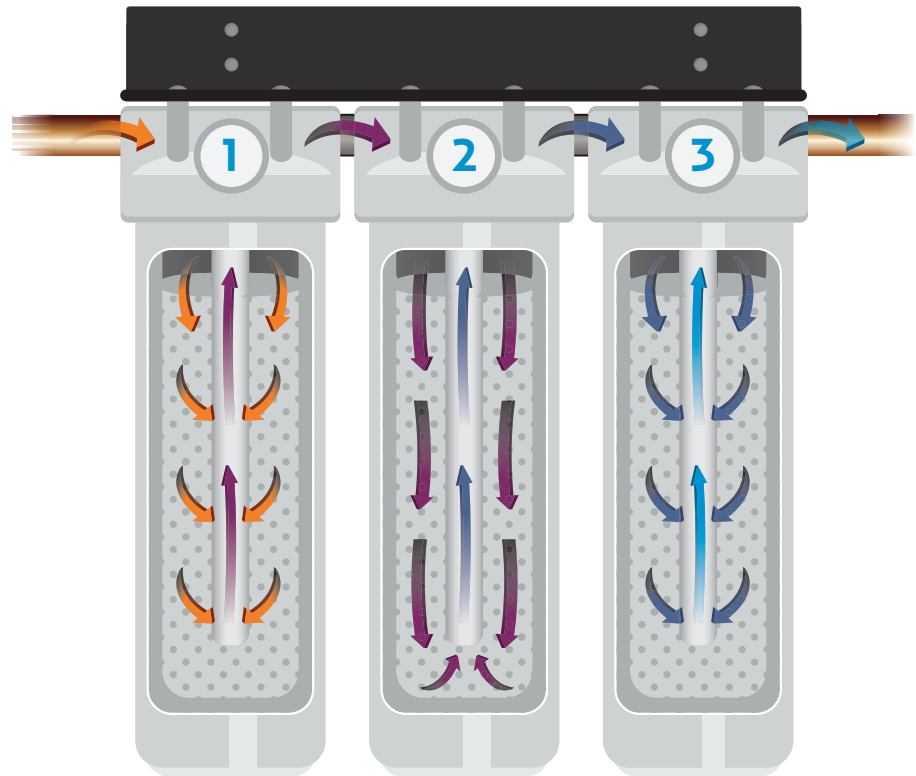

### Special Features:

- ✓ Requires no floor space, drain or electricity
- ✓ 3-stage filtration

### Warranty:

- ✓ 1 year limited warranty

## How It Works

### 1. Sediment Cartridge

Removes dirt and sediment particles down to 5 microns in size.

### 2. Unique Granular Carbon Cartridge

Removes chloramines and reduces many remaining contaminants.

### 3. High Performance Carbon Cartridge

Removes chlorine and reduces many pesticides, herbicides, THMs, VOCs and more.

### Specifications:

Model	Optimal Flow Rate	Filter Cartridge Sizes
TSCART	< 6 gpm	4.5" x 20"

Also available for private well applications meeting the following feed water requirements: < .3 ppm iron, < .05 H<sub>2</sub>S, < 10 ppm turbidity, < .05 ppm manganese and < .5 ppm tannins. This is not a disinfection system. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before and after the system. Constructed of NSF and/or FDA approved materials.
